Lesson 1: Introduction to Dr. Heidegger's Experiment

Author biography

Nathaniel Hawthorne was born in Salem, Massachusetts, on 4 July 1804; his ancestor John Hathorne was a judge in the Salem witch trials of 1692, a family history Hawthorne felt as a burden (he added the "w" to his name). After graduating from Bowdoin College in 1825 he spent years writing in near-seclusion in Salem, publishing Twice-Told Tales in 1837. He lived briefly at the utopian Brook Farm community, worked at the Salem Custom House, and achieved fame with The Scarlet Letter (1850) and The House of the Seven Gables (1851). He served as U.S. consul in Liverpool and died on 19 May 1864 in Plymouth, New Hampshire.

Historical and cultural context

The story plays on the legend of the Fountain of Youth, which tradition (not evidence) links to the Spanish explorer Juan Ponce de León in Florida. The 1830s were also a time of popular quack medicine and "scientific" curiosity.

Publication and reception, then and now

First published as "The Fountain of Youth" in the Knickerbocker magazine in January 1837; collected in Twice-Told Tales (1837) under its present title.

Then: One of the tales that made Twice-Told Tales a modest success.

Now: Often taught with "The Minister's Black Veil" as a short, clear example of Hawthorne's allegory and irony.

Overview (spoiler-free)

Old Dr. Heidegger invites four elderly friends, each ruined by vanity, greed or pleasure, to test water from the Fountain of Youth.

Main themes

- failure to learn from experience.
- vanity and the desire for youth.
- science and folly.

Why it matters

The story questions whether people really change, and pokes at today's obsession with staying young.

Spoilers · teacher only

They grow young and repeat all their old follies, fighting over the widow; the vase breaks, the effect fades, and instead of learning the lesson they resolve to go to Florida and drink there forever.

- Our story metadata gives Twice-Told Tales (1837) as first publication; the earlier Knickerbocker appearance (January 1837, as "The Fountain of Youth") should be confirmed.
- The narrator admits he may be called "a fiction-monger" and Heidegger's guests suspect a trick; Hawthorne leaves the water's reality uncertain.

Middle School (250 words; Common Core: RL.7.6, W.7.1): Excerpt-based (Middle School support track; this story is above the grades 6–8 complexity band, so work from the passage your teacher selects). In "Dr. Heidegger's Experiment," how does Hawthorne show the foolishness of wishing to be young again? Write a paragraph that states your claim, quotes two details from the passage, and explains how each detail supports your idea. Use the irony you noticed as one piece of evidence.

HS Freshman (350 words; Common Core: RL.9-10.6, W.9-10.1): In Dr. Heidegger's Experiment, how does Hawthorne develop the idea of the foolishness of wishing to be young again? State a clear claim, support it with two or three quotations, and explain how the irony in the story helps build that idea.

HS Sophomore (450 words; Common Core: RL.9-10.6, W.9-10.1): Analyze how Dr. Heidegger's Experiment develops the idea of the foolishness of wishing to be young again. Make a precise claim, support it with at least three pieces of textual evidence, and explain how the author's use of irony and symbolism shapes that idea. Address one possible counterclaim.

HS Junior (550 words; Common Core: RL.11-12.5, RL.11-12.1, W.11-12.1): Analyze how the structure of Dr. Heidegger's Experiment (where it begins, turns and ends) and its irony shape the reader's understanding of the foolishness of wishing to be young again. Identify one place where the text leaves matters uncertain and explain how that uncertainty adds to its meaning. Distinguish what is directly stated from what is really meant.

HS Senior (600 words; Common Core: RL.11-12.6, W.11-12.1): Two readers disagree about what Dr. Heidegger's Experiment suggests about the foolishness of wishing to be young again. Distinguish what is directly stated from what is really meant.

AP (650 words; Common Core: RL.11-12.6, W.11-12.1): Write a literary argument in which you analyze how Nathaniel Hawthorne uses irony in Dr. Heidegger's Experiment to complicate the reader's understanding of the foolishness of wishing to be young again. State your method, show what it reveals in the story's irony and symbolism, and identify where the text resists it.

Graduate / PhD (2500 words; Common Core: LeL-GR-LIT-1, LeL-GR-W-1): Develop an original argument that reads Dr. Heidegger's Experiment as a hinge in the story's larger treatment of the foolishness of wishing to be young again.
